

# Machine types 51,5, VKA & 6x

Precise, full width magnetic bed provides superior holding capability.

Modern and simple control using an innovative touch panel.

Handheld operator's control allows for detailed control during setup and operation.

Powerful SI grinding motor operates with extreme efficiency and tireless performance.

TYPE 51			
Grinding length (inch)	39.4	82.7	122.0
Motor power (HP)	10.2**	15.0**	
Chuck width (inch)	6 - swiveling		

TYPE 5							
Grinding length (inch)*	39.4	59.1	82.7	98.4	122.0	141.7	161.4
Motor power (HP)	10.2**	15.0**	18.4**	20.4			
Chuck width (inch)	5.9 - swiveling		2x 3.9 - swiveling			7.9 - fixed	

TYPE 6x							
Grinding length (inch)*	39.4	59.1	82.7	98.4	122.0	141.7	161.4
Motor power (HP)	20.4**	25.2**	22.9**				
Chuck width (inch)	7.9 - swiveling		2x 5.9 - swiveling			9.8 - fixed or swiveling	

TYPE 5 VKA			
Grinding length (inch)*	82.7	122.0	161.4
Motor power (HP)	18.4**	20.4	
Chuck width (inch)	5.9 - swiveling		

\*Other lengths on request

\*\* S1 grinding motor will produce continuous, undiminished results, with no need for down time. This is a level of performance not offered by the competition.

The Type 5 VKA Series offers a honing head for micro-beveling on both the top and bottom edges of your knife.
