# P30

5' SLIDING TABLE SAW

# P30 | 5' SLIDING TABLE SAW

## Powerful features in a small footprint sliding panel saw.

The Cantek P30 5" Sliding Table Saw is the ideal solution for customers looking for the precision and convenience of a sliding table saw but have limited floor space and smaller cutting requirements. The P30 has a precision sliding table which runs on ball bearings and hardened steel guide strips. It is equipped with individual motors for the main saw blade (5 HP) and scoring blade (¾ HP). The blade height and tilt is manually adjusted by means of individual handwheels. The angle of the blade is displayed by a linear scale for added operator convenience. The rip fence runs on a round hardened rail and is manually adjusted up to 51". Equipped with a crosscut miter fence and (2) flip stops.

CE overarm dust collection & safety guard

Precision sliding table that runs on ball bearings and hardened steel guide strips

Aluminum crosscut fence with flip stop and miter capacity

Control panel, tilt handwheel and gauge

Rip fence

## Key Advantages.

- Precision anodized aluminum sliding table with ball bearing guide system for smooth table movement
- Powerful 5 HP main motor with ¾ HP scoring motor
- Heavy duty cast-iron rip fence with 51" cutting capacity
- Aluminum crosscut miter fence with (2) flip stops
- Manual rise/fall the main saw blade
- Manual tilting of the saw blades with angle indicator conveniently located by adjustment handwheel
- Overarm blade guard with build in dust port
- Solid cast iron main table which is ground and polished
- Heavy-duty outrigger for strong support of workpiece during cutting operations
- Solid rip fence with manual fine adjustment and locking lever
- Easy to access external scoring adjustment
- Extension table at side and back of main table
- Optional Equipment Included:
  - Eccentric hold down clamp
  - CE Overarm Guard with Dust Port
  - Wedge for Solid Wood Ripping

## Specifications.

Sliding table dimension	63" x 12.4"
Cast Iron table	21 ½" x 35 ¼"
Extension table (rear)	18" x 17 ½"
Extension table (front)	12 ½" x 32 ½"
Table size	39 ½" x 68"
Main saw blade (Max.)	12"
Main saw bore	30mm
Max. cutting height at 90° (355mm)	3.54"
Max. cutting height at 45° (355mm)	2.48"
Main motor power	5 HP
Main blade speed	4000 RPM
Scoring saw blade	120mm
Scoring saw blade bore	20mm
Scoring blade motor power(optional)	¾ HP
Scoring blade speed	8000 RPM
Cutting width – ripping	51"
Cutting width adjustment	Manual
Main saw blade tilting adjustment	Manual (0°~ 45°)
Main saw height adjustment	Manual
Scoring saw height adjustment	Manual
Saw guard	CE Guard Included
Dust collection ports	(1) 4" / (1) 2.3"
Machine weight	984 lbs
